terri-hart-ellis.pixels.com website

GEAR

- Gorillapod tripod (or any small, flexible tripod made for your phone)
- telephoto lens
- macro, fisheye and wide angle clip on lenses
- amazon and photojojo.com have lots of options

CAMERA AND EDITING APPS

- Lightroom mobile
- Affinity
- VividHDR or HDRPro
- Snapseed
- VSCO
- Camera+ (shutter/ISO control, macro)
- SKRWT (lens correction, symmetry, great for architectural photos)
- SlowShutter (for smooth or blurred look, use with tripod)
- Cortex Cam (use in low light)
- Juxtaposer or superimpose (for composites)
- TouchReTouch (object removal, cloning)
- Look Birdy (light and sounds to get toddler's attention)

FILTER AND EFFECT APPS

- Lens Distortion
- Mextures
- DistressedFX
- After Focus

LEARN MORE

- Digital Photography School (for dslr users, but much applies to mobile photography)
- YouTube - demos on just about anything you can type in search
- For individual tutoring on iPhone (only) mobile photography - email me at terrihar6@hotmail.com
